THE Washington correspondent of The Commercial Tribune lays bare the insincerity of the Cieveland Administration in the application of the Civil Cervice Rules.

Beginning January 1st another id of Democratic officials were placed under the protection of the Civil Service.

Some time ago an Executive order was issued placing Pension Examiner under the Civil Service Law, and this order went into effect Friday.

It is wall to state in connection with this order that nearly all the Pension Examiners who were in office when the Harrison Administration retired in 1892 have been relegated to private life, and there are very faw such Examiners in the country today who are not members of the Democratic party.

By this it is again seen what a farc and fraud the Civil Service Law is as at present enforced. As a final act of the Pension Office before the Examiners became subject to the Civil Service a nnm ber of Pension Examiners were ap peinted the day previous, who will thu escape having to undergo any examina tion, the bulk of the appointments be ing in the Western states.

Doctors over the country have pro tested against the extension of the Civil Service to cover Pension Examiners They have argued, and with good rea son, that there is hardly a state in the Union where a man can practice medicine without a license or without being nized standing, and his diploma itself should be sufficient evidence that he is competent to fill the office. The office nized standing, and his diploma itself
should be safficient evidence that he is
